

MD SHAHNAWAZ

Full Stack Web Developer

☎ +91 9582155014 ✉ mdshahnawazm474@gmail.com  [linkedin.com/in/md-shahnawaz](https://www.linkedin.com/in/md-shahnawaz)  github.com/MdShahnawaz474

SUMMARY

Results-driven Full Stack Developer with 1+ years of professional experience at Firstbench, progressing from Intern to SDE-I. Skilled in developing and deploying scalable web applications using Node.js, PostgreSQL, Sequelize, Prisma, and MongoDB for backend services, and React.js, Next.js, Tailwind CSS, and ShadCN UI for front-end development. Proficient in AWS deployment, performance optimization, and modern DevOps workflows. Strong focus on clean architecture, maintainable code, and delivering high-performance user experiences in agile environments.

TECHNICAL SKILLS

FRONTEND: React.js, Next.js, Tailwind CSS, ShadCN UI, HTML5, CSS3, JavaScript, TypeScript

BACKEND: Node.js, Express.js, RESTful APIs, Prisma, Sequelize

DATABASES: PostgreSQL, MongoDB, MySQL

DEVOPS / CLOUD: AWS (EC2, S3), Git, GitHub, CI/CD

OTHER TOOLS: Postman, Vercel, Docker (basics), JWT Authentication, bcrypt, Clerk Auth

CORE CONCEPTS: MVC architecture, Authentication & Authorization, CRUD Operations, Scalable APIs

PROFESSIONAL EXPERIENCE

Firstbench , Bangalore India
Software Development Engineer I (Full Stack Developer)

July 2025 - Present

Product: First Line – End-to-End Encrypted Audio Platform

[Play Store](#) | [Web](#)

Tech Stack: Node.js, Sequelize (PostgreSQL), React.js, Next.js, Tailwind CSS, Flutter, AWS, LiveKit

- Leading backend and web development for **First_Line**, a **B2B encrypted communication platform** for enterprise clients.
- Designed and implemented **role-based access control (RBAC)** and multi-user management for premium and admin users.
- Built **role-based access control (RBAC)** and multi-tier authentication systems for enterprise and admin users.
- Built **secure backend APIs** using **Node.js**, **Express**, and **Sequelize (PostgreSQL)** for user lifecycle management — create, update, delete, and password control.
- Designed auto-deletion cron jobs for managing recordings based on subscription plans.
- Integrated end-to-end encrypted audio streaming and recording using LiveKit (WebRTC).
- Developed a **React/Next.js-based admin dashboard** for managing users, roles, and activity logs.
- Collaborated with frontend, mobile, and DevOps teams to deploy and monitor applications via **AWS services (S3, EC2)**.

Full stack web developer Intern

January 2025 - July2025

Project: Teacher Dashboard & Role-Based Learning Platform

Tech Stack: Node.js, Sequelize (PostgreSQL), React.js, Next.js, Tailwind CSS,

- Developed a **Teacher Dashboard** and backend services for a role-based educational platform.
- Built **backend APIs** for user role hierarchy — **Client**, **Admin**, **Teacher**, **Engineer**, and **Student** — enabling each to have defined permissions and actions.
- Implemented **Google Authentication** and **email verification** for secure and seamless user onboarding.
- Enabled **clients to create organizations** (companies), manage their own users, and assign roles dynamically (Teacher, Engineer, Student).
- Focused on **security**, **scalability**, and **maintainable** code following RESTful best practices.
- Designed **APIs** for **class scheduling**, **joining sessions**, and **managing class data**, integrated with both web and mobile interfaces.

PROJECTS

CodeFlow AI – AI-powered coding assistant

[Live Demo](#)

Tech Stack: Next.js 15, React, TypeScript, Express, MongoDB , Google Generative AI, JWT,

- Built **full-stack AI chat** platform with secure **JWT authentication** and real-time conversation management, integrating Google Generative AI for intelligent responses and **automated title generation**
- Designed responsive frontend with **Tailwind CSS**, supporting **real-time chat**, conversation CRUD, and **context-aware** AI responses.
- Developed **RESTful API** using **Express** and MongoDB with token-based authentication, **implementing automated database cleanup** using node-cron for optimal performance
- Implemented **state management**, API integration, and polished UX for seamless **multi-conversation handling**.

AI Typing Test – Interactive typing app with AI-powered performance review

[Live Demo](#)

Tech Stack: Next.js 15, TypeScript, Express, MongoDB , Google Generative AI, JWT,

- Built a real-time typing test using **Next.js**, React, **TypeScript**, and **Tailwind CSS**, featuring **WPM**, accuracy, total characters, and multi-quote sessions.
- Integrated Google Gemini AI for optional structured performance reviews with strict JSON parsing and offline fallback.
- Developed a responsive, accessible 3-column UI, using hooks for typing logic and AI review, providing live stats and session management.
- Implemented robust state handling with refs to ensure accurate metrics and seamless multi-quote flow.

Trimly – Image resizing tool for social media

[Live Demo](#)

Tech Stack: Next.js 15 TypeScript, Prisma, Clerk, Cloudinary

- Developed web application for **resizing** and **optimizing images** specifically for Instagram/X, ensuring correct aspect ratios and high-quality output.
- Integrated **Cloudinary** for **secure, scalable media storage** and transformation, enabling efficient upload, processing, and delivery of images.
- Implemented **user authentication** and **authorization** using **Clerk**, allowing **personalized galleries**, secure image uploads, and **user-specific access** controls.

Keep Notes Project

[Live Demo](#)

Tech Stack: Node.js, Express, MongoDB, JWT, ReactJs

- Frontend: Built with React, styled using Tailwind CSS, integrated with React Router and JoditEditor. Core components include Navbar, Notes Manager (view, edit, delete), and Footer with social links.
- Authentication: JWT-based user sign-up/login with bcrypt password hashing.
- Backend: MongoDB with Mongoose, supporting full CRUD operations on notes and user details.
- Real-Time Features: Online status tracking with custom components and error handling.

Zerodha Clone – Static stock trading dashboard

[Live Demo](#)

- Developed a static web clone of Zerodha using **HTML**, **CSS**, and **JavaScript** to replicate core UI components and layout.
- Implemented responsive design to mimic real trading dashboards across devices.
- Showcased features like portfolio overview, stock listings, and chart placeholders, focusing on visual fidelity and UX.
- Built as a learning project to practice frontend layout, design consistency, and interactive elements without backend integration.

Modern Chair Project

[Live Demo](#)

- Built a responsive product page using HTML, CSS, and JavaScript that updates chair images and background colors dynamically based on user selection.

EDUCATION

Bachelor of Computer Application

Maharishi Dayanand Unviersity

📍 Rohtak, Haryana

September 2021 - May 2024

Class XII (From CBSE)

Government Boys' Senior Secondary School G
block kalkaji

📍 Delhi ,India

May 2020 - June2021

Class X (From CBSE)

Government Boys' Senior Secondary School G
block kalkaji

📍 Delhi ,India

May 2018 - April 2019

CERTIFICATIONS

HTML , CSS , JAVASCRIPT

From Sheriyans Coding School

June 2021 - December2021

REACT JS

From Namaste dev

January 2022 - September 2022

BASICS OF BACKEND DEVELOPMENT

(Node JS, Express Js, Mongo DB)

From Physics Wallah

June 2023 - October 2024

COHORT 2 FULL STACK WEB DEVELOPMENT(MERN)

From 100xDevs (By Harkirat Singh)

December 2023- November2024

Advance Backend Development

From AlgoCamp

January2025- Present

NamasteDev.com

CERTIFICATE OF COMPLETION

This certificate is proudly awarded to,

MD SHAHNAWAZ

For successfully completing the
Namaste React Course.

Akshay Saini

(Founder, NamasteDev.com)

certificate of excellence

PRESENTED TO

MD SHAHNAWAZ

for successfully completing the training on

FRONT-END WEB DEVELOPMENT

with the Sheryians Coding School conducted from March 20, 2023 to July 20, 2023

Training covered in depth knowledge of HTML, CSS & JS.

**SHERYIANS
CODING
SCHOOL**

Adarsh Gupta
Co Founder - Sheryians

22-July-2023

Date

THIS IS TO CERTIFY THAT
MD SHAHNAWAZ

HAS SUCCESSFULLY COMPLETED
Prompt Engineering Bootcamp

FROM 30 JULY 2024 TO 3 AUGUST 2024
(5 Days)

IN COLLABORATION WITH

DATE OF ISSUE: 4 AUGUST 2024

CERTIFICATE NO: LUEPEJUL124147

WWW.LETSUPGRADE.IN/VERIFY

THIS IS TO CERTIFY THAT
MD SHAHNAWAZ

HAS SUCCESSFULLY COMPLETED
ChatGPT Bootcamp

FROM 17 JUNE 2024 TO 21 JUNE 2024
(5 Days)

IN COLLABORATION WITH
